

ADVANCED CHEMICAL SOLUTIONS

WWW.MATRIXTOLL.COM

MATRIX TOLL MANUFACTURING:
**Delivering efficiency, sustainability,
and high performance
in oilfield operations.**

WHO WE ARE

Matrix Toll Manufacturing, based in **Midland, Texas**, provides **high-performance chemical solutions** that enhance operational **efficiency** and **sustainability** in oilfield operations.

CORE VALUES

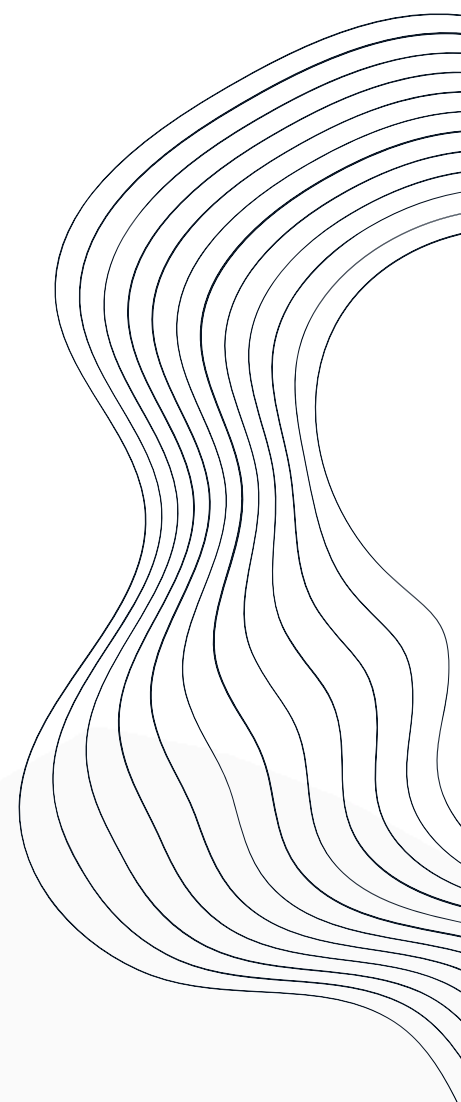

Innovation, quality, and environmental responsibility define our approach to chemical manufacturing, ensuring **we deliver best in class solutions** for the Oil and Gas sector.

SPECIALIZATIONS

Our expertise includes **friction reducers, scale inhibitors, biocides, and on-site blending**, designed to **improve** operational performance and sustainability.

Problems addressed by Matrix Toll:

OPERATIONAL INEFFICIENCIES

Inefficient fluid flow, equipment corrosion, and bacterial contamination contribute to costly downtime and reduced performance in oilfield operations.

ENVIRONMENTAL IMPACT

Traditional chemical solutions often result in high carbon emissions and environmental degradation, leading to increased regulatory pressure.

HIGH OPERATIONAL COSTS

The oil and gas industry faces escalating costs from frequent equipment maintenance, chemical use, and logistics inefficiencies.

Matrix Toll addresses key industry challenges by **improving** operational efficiency, **reducing** environmental impact, and **lowering** high operational costs in the oil and gas sector.

**EMPOWERING
OPERATIONS
WITH ADVANCED
CHEMICAL
SOLUTIONS**

● **FRICTION REDUCERS**

Enhance fluid flow for more efficient hydraulic fracturing.

● **SCALE INHIBITORS**

Prevent harmful scale build-up to ensure system efficiency and reduce downtime.

● **BIOCIDES**

Eliminate bacteria and maintain water purity, protecting equipment.

● **ON-SITE BLENDING**

Efficient, in-basin chemical blending for consistent supply and minimized downtime.

MTM FRICTION REDUCERS:

PRODUCT LINE:

MATRIX **A** SERIES ANIONIC FRICTION REDUCERS

MTM A20™ High Brine Anionic Friction Reducer

MTM A19™ Mid Brine Anionic Friction Reducer

MTM A15™ Freshwater Anionic Friction Reducer

PRODUCT LINE:

MATRIX **C** SERIES CATIONIC FRICTION REDUCERS

MTM C50™ High Brine Cationic Friction Reducer

MTM C40™ Mid Brine Cationic Friction Reducer

MTM C30™ Fresh to Low Brine Cationic FR

Specialty formulated by **Matrix Toll** to deliver **best-in-class** performance and economics.

KEY FEATURES*

- Ultra-Fast Hydration
- High Brine Tolerance
- Slickwater and HVFR Capabilities
- Broad-Spectrum Application
- Environmentally Friendly Formula
- Customizable Performance

*Matrix Toll Friction Reducers offer immediate activation, ensuring faster and more efficient hydraulic fracturing with superior fluid movement through enhanced slickwater and HVFR capabilities, even in high-salinity environments. Their broad-spectrum application makes them suitable for a wide range of brine conditions, from freshwater to high TDS. The non-VOC, environmentally friendly formula ensures sustainability without sacrificing performance. Additionally, each product is tailored to specific well conditions, delivering best-in-class efficiency and reduced operational costs.

MATRIX TOLL PATENTED FR'S:

- Maximizing well efficiency
- Optimizes fluid flow, reducing surface treating pressure.
- Suitable for use in both freshwater and high-brine environments.

DRY ON THE FLY | **FRICITION REDUCER™**

- ULTRA-FAST HYDRATION
- **DIRECT INJECT DRY FR**
- SMALL FOOTPRINT
- **FULLY SELF-CONTAINED**
- FRESHWATER TO EXTREME BRINE RANGE
- **SUPERIOR PERFORMANCE**
- LOWER COST
- **SIGNIFICANT COST SAVINGS (\$1.0M/YEAR PER CREW)**

ENVIRO | **FRICITION REDUCER™** **FR 2.25**

- ULTRA-FAST HYDRATION
- **MINIMAL ENVIRONMENTAL IMPACT**
- HIGH BRINE TOLERANCE
- **IMPROVED VISCOSITY**
- INSTANT ACTIVATION
- **COST EFFICIENCY**
- NON-VOC FORMULA
- **ROBUST SUPPLY CHAIN**

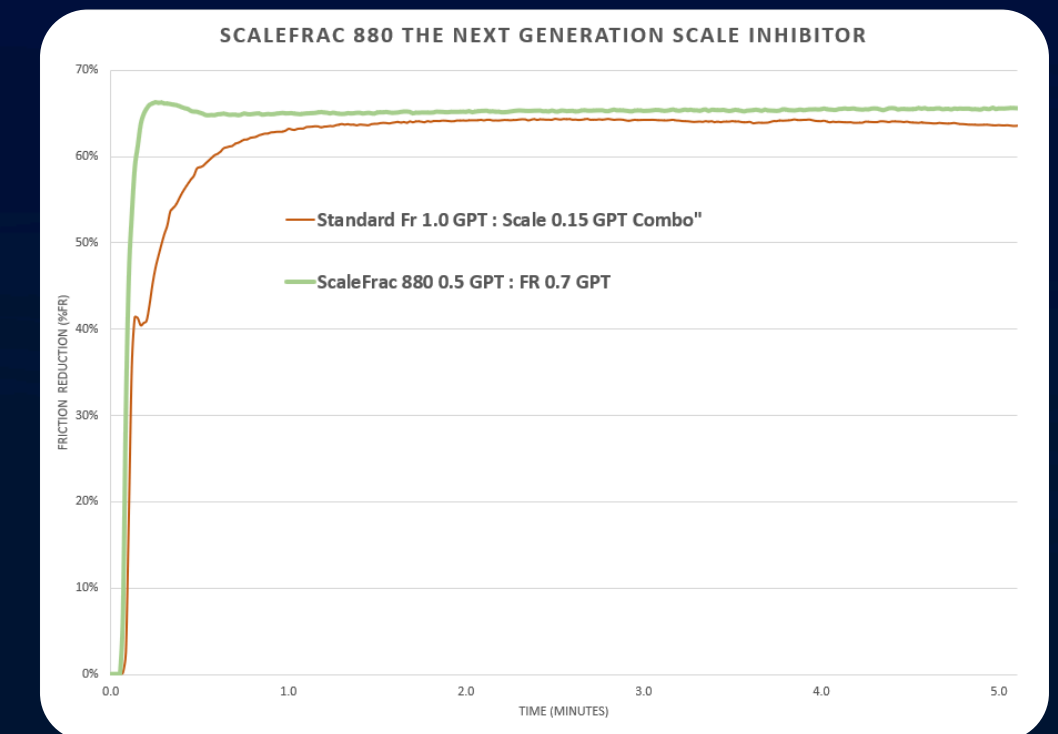

MATRIX TOLL PATENTED SCALE INHIBITORS:

- Ensuring equipment longevity.
- Prevents formation of oilfield scales like calcium carbonate and barium sulfate.
- Enhances system efficiency and protects critical equipment.

SCALEFRAC | **XXXXXXXXXX**
880 | **SCALE INHIBITOR™**

- LOWER FRICTION REDUCER CONSUMPTION BY 20%
- INCREASE FRICTION REDUCER PERFORMANCE BY SUPPORTING HYDRATION
- LESS DEGRADATION TO FRICTION REDUCER OVER TIME
- ADVANCES BEYOND CONVENTIONAL INHIBITOR PERFORMANCE
- LESS COLLOIDAL DAMAGE TO THE SHALE FORMATION
- LOWER VOCs FOR THE ENTIRE CHEMICAL PACKAGE
- DECREASE YOUR TOTAL COST TO TREAT 1000 GALLONS BY 10% TO 30%
- REDUCE HORSEPOWER CONSUMPTION
- INCREASE BPM
- ENVIRONMENTALLY FRIENDLY

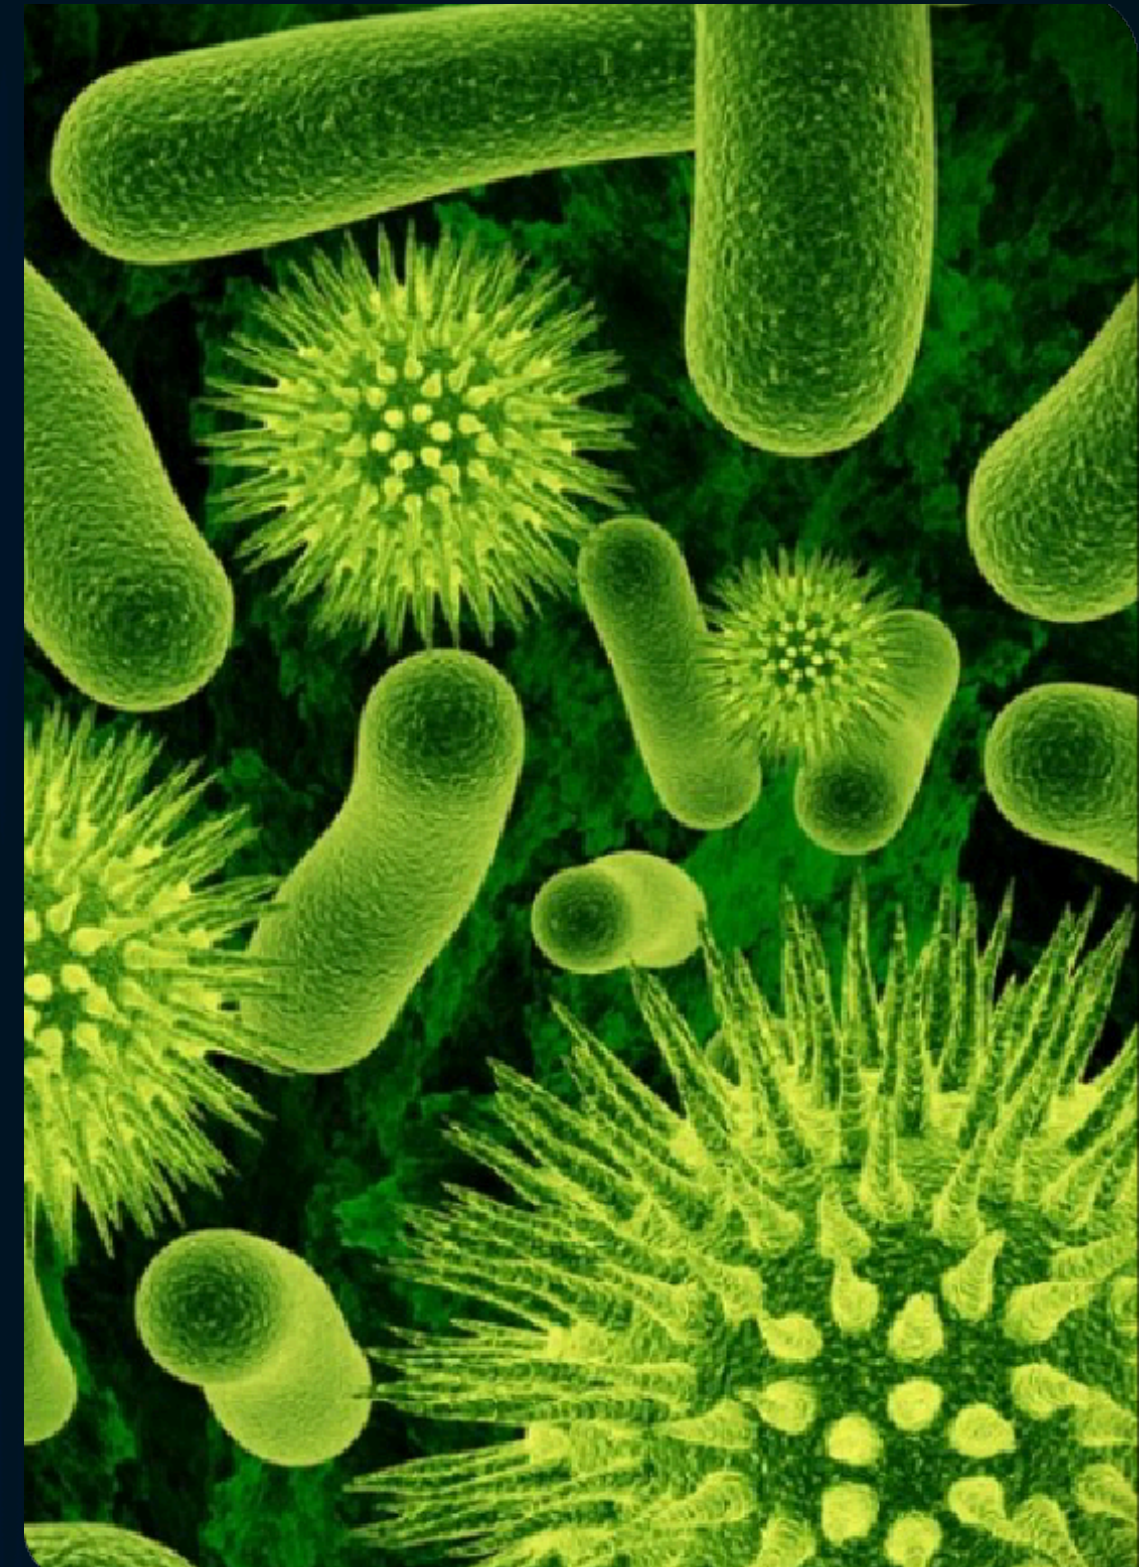

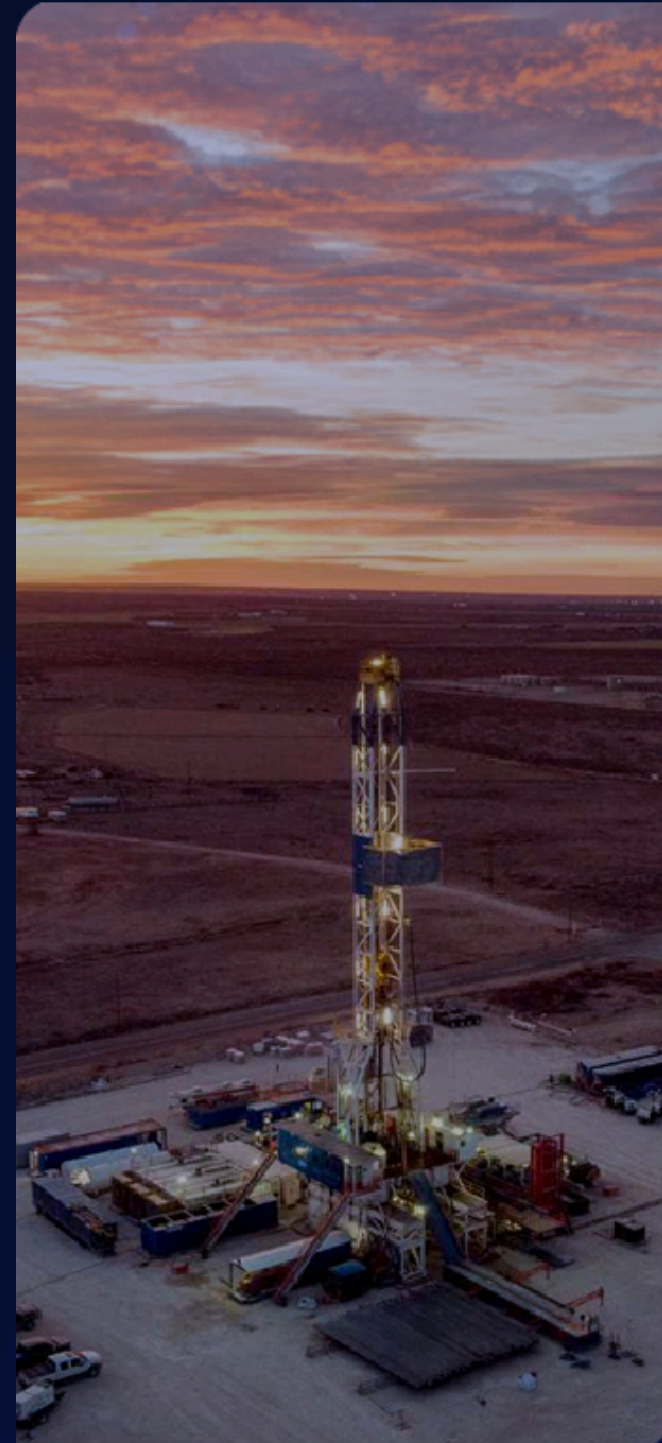

MATRIX TOLL BIOCIDE MANUFACTURING:

- Safeguarding water and equipment.
- Neutralizes harmful microorganisms in fracturing fluids.
- Protects equipment from bacterial corrosion and enhances overall well performance.

- BROAD-SPECTRUM BACTERIAL CONTROL
- **EFFECTIVE IN HIGH-TDS WATER CONDITIONS**
- NON-OXIDIZING FORMULA
- **LOW DOSAGE, HIGH EFFICIENCY**
- ENVIRONMENTALLY FRIENDLY COMPOSITION
- **LONG-LASTING PROTECTION AGAINST BIOFILM FORMATION**
- COMPATIBLE WITH MULTIPLE FLUID SYSTEMS
- **SAFE HANDLING AND STORAGE**

Matrix Toll delivers complete, ready-to-deploy solutions, tailored to streamline your operations with precision and care.

LOGISTICS AND SUPPLY CHAIN MANAGEMENT	ON-SITE SERVICE AND SUPPORT	CUSTOM EQUIPMENT SOLUTIONS
Matrix Toll ensures efficient product delivery through optimized routes that reduce transportation costs while maintaining reliable, timely service. Our in-basin blending provides a consistent supply of chemicals, minimizing operational downtime and ensuring rapid availability to meet your needs.	Our full-service teams manage pump trailers and crews on-site, ensuring seamless operations from setup to execution. With technical expertise, we offer hands-on assistance throughout the process, from product integration to performance monitoring, guaranteeing top-tier results.	Matrix Toll provides state-of-the-art field equipment, ensuring smooth operations with no delays. Our last-mile logistics deliver products and equipment directly to your well pad, ensuring zero downtime and maximum operational efficiency.

END-TO-END SUPPORT

Through turnkey project execution, Matrix Toll handles every aspect of your project, from chemical formulation to in-field operations, ensuring operational success and efficiency throughout the entire process.

WHY CHOOSE US?

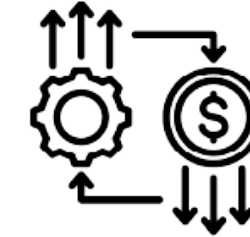

WHY CHOOSE MATRIX TOLL?

In-basin blending ensures consistent supply chain and reduces operational downtime.

Tailored chemical solutions to meet specific client needs.

Proven track record of improving operational efficiency and reducing costs.

Lower Chemical Loadings

30%

Achieve substantial cost savings through Matrix Toll's innovative friction reducer technology.

Reduced Maintenance Costs

20%

Minimize equipment wear and downtime with Matrix Toll's advanced scale inhibitors and biocides.

Significant Cost Savings

\$1.0M /YEAR
PER CREW

Achieve substantial cost savings through Matrix Toll's innovative friction reducer technology.

Matrix Toll prioritizes eco-friendly solutions across all operations.

OUR COMMITMENT TO SUSTAINABILITY

- Minimizing environmental impact while maintaining high performance.
- Reduced carbon emissions through innovative chemical solutions.
- Water conservation in manufacturing processes.
- Commitment to reducing waste and pollution.
- Alignment with global environmental standards.
- Active participation in community and environmental initiatives.

Our robust logistics network ensures timely delivery of chemicals to your well site.

Optimized routes and methods to reduce transportation costs while maintaining reliability.

Our logistics team works closely with field operations to ensure minimal downtime and increased productivity.

Custom inventory management solutions ensure that our customers always have access to the products they need.

TECHNICAL EXPERTISE AND SUPPORT

Matrix Toll Manufacturing provides technical consultations, on-site evaluations, and product performance monitoring.

Our team of experienced professionals offers hands-on support to ensure seamless product integration into your operations.

R&D AND INNOVATION

- At Matrix Toll, our commitment to research and development keeps us at the forefront of chemical innovation.
- Our cutting-edge R&D facility allows us to rapidly develop and test new solutions that meet the specific demands of the oil and gas industry.
- Partnering with clients, we customize formulations to enhance efficiency and reduce environmental impact.

Driving Innovation in Chemical Solutions

Partner with Matrix Toll Manufacturing

WWW.MATRIXTOLL.COM

We offer flexible partnership opportunities for companies seeking tailored chemical solutions and ongoing support.

We are committed to fostering long-term relationships with clients, delivering value through our products and services.

Let's work together!
